PROFESSIONAL SUMMARY

Dynamic and innovative Full Stack Developer with a Master's degree in Computer Science from Western University and a proven track record in developing, optimizing, and managing high-quality software solutions. Specialized in React.js and Node.js, with substantial experience leveraging JavaScript, TypeScript, and RESTful APIs. Adept at driving significant improvements in mobile and web application performance, as demonstrated in roles at Falabella India and through successful projects.

SKILLS

Languages:	Javascript, TypeScript, Java, Python, HTML, CSS, SQL, C, C++
Technologies:	Node.js, React.js, React, Redux, Material-UI, Bootstrap, GraphQL, REST, Express.js, Fastify, Jest, WireframeSketcher, Figma, Canvas, Git, Next.js, TailwindCSS, AWS
DBMS:	MongoDB, PostgreSQL, SQLite
Tools:	JIRA, Confluence, Github, VS Code
Soft skills:	Quick-Learner, Collaborative, Time-Management, Teamwork, Communication, Problem-Solving, Troubleshooting, Debugging, Collaboration

EXPERIENCE

Graduate Teaching Assistant

Western University - London, Ontario, Canada

Sept 2024 - Dec 2024, Jan 2024 - Apr 2024

- Led lab sessions for the Multimedia and Communication course, guiding students through practical applications of WinSCP, FileZilla, Affinity Photo.
- Provided one-on-one support to resolve technical doubts and reinforce understanding of web development fundamentals like HTML & CSS.

Back End Software Engineer

Falabella India - Bangalore, India

Apr 2023 - Aug 2023

- Developed and integrated APIs for an omni-channel retail platform, enabling seamless cross-channel user experiences using event-driven architectures.
- Designed and implemented a key feature to integrate Pinpad as an additional payment mode, enhancing in-store sales performance by up to 25%.
- Ensured API reliability and performance through unit and integration testing, while collaborating with cross-functional teams to resolve production issues efficiently.

Associate Engineer

Falabella India - Bangalore, India

Aug 2022 - Mar 2023

- Developed and maintained test cases for new features in a high-demand retail project, ensuring reliability and performance with CI/CD.
- Applied Agile methodologies and test-driven development to manage sprints and deliver features on time by QA/UAT feedback.
- Secured a top 10 finalist position involving 80+ multicultural teams from Falabella's IT divisions worldwide in a global hackathon by contributing to an omni-channel retailing solution.

Engineer Intern

Falabella India - Bangalore, India

Mar 2022 - Jul 2022

- Developed a Progressive Web App (PWA) in 4 months, optimizing performance with Webpack and Babel, reducing load times by 30% .

- Integrated 5+ third-party APIs and GraphQL services to enhance application functionality, improving user engagement by 20%.
- Applied Agile methodology and SDLC best practices, leading to a full-time role as an Associate Engineer within 5 months.

Software Development Intern

5to9 Ventures Corp. - Remote, USA

Dec 2020 - Dec 2021

- Developed full-stack solutions for software projects, integrating third-party APIs and implementing asynchronous JavaScript to optimize API efficiency.
- Enhanced application security by implementing CORS handling, authentication methods, and CSRF protection, improving data protection.
- Designed 5+ wireframe sketches to improve user experience and contributed to branding efforts, assisting in logo design for a cohesive company identity.

PROJECTS

Service-Oriented Architecture for Scalable Web Application

- Designed and developed a scalable SOA system using OOD principles, Google Cloud, React.js, Node.js, and MongoDB, enabling 99.9% uptime and efficient service registration for seamless data handling and security.
- Led front-end development, optimizing usability and reliability, improving beauty product discovery by 30% through a modular architecture.

Restaurant Management System

- Developed a full-stack web application for restaurant management using MongoDB, Express.js, Node.js, and React.js (MERN stack) and applied software engineering best practices to streamline code readability.

eAarogya Portal for Electronic Health Record (EHR) Management

- Designed and implemented the award-winning solution for the Smart India Hackathon (SIH) 2020, securing the 1st place among 250+ teams nationwide.
- This application focuses on use of private blockchain to create and manage electronic health records on top of the existing Aadhaar Identity Infrastructure (UIDAI).
- Built a secure, full-stack EHR management portal enabling 100% improvement in data accessibility, reducing manual effort by 50% through digital patient record management and appointment scheduling.

IEEE GIT Website Contest

- Optimized the university IEEE chapter's website, reducing load times by 35% and enhancing navigation, responsiveness, and visual appeal using HTML, CSS, and JavaScript.

EDUCATION

Masters of Science, Computer Science,
Western University, London, Ontario

Sep 2023 - Dec 2024

Bachelors of Engineering, Computer Science Engineering,
KLS Gogte Institute of Technology, Karnataka, India

Aug 2018 - July 2022

CERTIFICATIONS

AWS Academy Graduate – AWS Academy Cloud Foundations

February 2022

Full-Stack Web Development with React Specialization, Coursera

Dec 2020

Introduction to Programming using Python

October 2019
